Response to Office Action Dated 04/18/2006

28. (cancel).

29. (currently amended) The method of claim ~~[[28]]~~19, wherein said attributes for said text include at least one of color, size, font and location.

5

30. (original) The method of claim 19, wherein said document includes a document having at least a C paper size.

31. (original) The method of claim 19, wherein said remote device is a
10 web site.

32. (withdrawn) A method of generating a document, said method comprising steps of:

generating an image file, including at least one image;
15 generating a document description file, including text; and
generating a preview of said document from a template file, said preview including said at least one image and said text.

33. (withdrawn) The method of claim 32, further comprising steps of:
20 extracting said at least one image from said image file;
extracting said text from said document description file; and
extracting attributes for said at least one image and said text from said document description file.

25 34. (withdrawn) The method of claim 33, wherein said attributes for said text include at least one of color, size, font and location and said attributes for said at least one image include at least one of scaling, cropping and location.

S/N 09/917,890

Response to Office Action Dated 04/18/2006

35. (withdrawn) The method of claim 34, wherein said template file includes a plurality of layers, said layers including sections of said template, and said method further comprises a step of

generating a plurality of layer files, wherein said layer files include
5 information from at least one of said layers.

36. (withdrawn) The method of claim 35, wherein said layers include at least one of images, text, and a template background.

10 37. (withdrawn) The method of claim 35, further comprising a step of integrating said extracted at least one image, said extracted text and said plurality of layer files into a first document file.

38. (withdrawn) The method of claim 37, wherein said step of
15 generating a preview further comprises generating said preview from said document file.

39. (withdrawn) The method of claim 38, wherein said preview
including a low resolution image of said at least one image.

20

40. (withdrawn) The method of claim 39, further comprising steps of:
generating a second document file including a high resolution image of said
at least one image; and
transmitting said second document file to a printing service.
